Summary

Full-Stack developer with over 3.5 years of hands-on experience in building robust web applications using frontend framework. Specializing in Angular, I excel at crafting intuitive user interface and seamless user experiences.

Experience

Infosys

Technology Analyst

Jan 2025 - Present, Pune, India

- Orchestrated service-based state management with RxJS across 15+ angular components, fortifying data consistency.
- Enhanced request traceability by adding x-correlation-id in request header using auth interceptor.
- Pioneered feature flags management using launch-darkly, enabling controlled rollout of new features and mitigating risks; this resulted in 40% decrease in critical production.

Senior Systems Engineer

Aug 2021 - Dec 2024, Pune, India

- Led the migration of angular application from version 8 to 13, ensuring seamless functionality and compatibility.
- Applied data management features using angular material, including sorting, filtering and pagination, improving data accessibility.
- Developed and executed 200+ test cases using Jasmine and Karma to ensure the reliability of angular components, including NgbModal, service, and forms.
- Implemented reactive forms to enhance user experience and streamline validation process, improving form handling and responsiveness.
- Integrated google analytics with UI, driving 18% improvement in user engagement through data-driven insights.
- Integrated RESTful Apis to facilitate seamless data exchange between frontend and backend systems.

Personal Project

BuzzLine

Post Application

Developed a social post application, allowing users to view posts created by others, create their own account and share posts with text and images.

- Built the frontend using Angular, providing a responsive and intuitive user interface for seamless navigation and interaction.
- Designed the backend with Node.js and Express, handling business logic and API endpoints for data management.
- Utilized MongoDB for efficient data storage and retrieval, ensuring scalability and performance.
- Deployed the backend on AWS Elastic Beanstalk for robust hosting and scalability, while serving the frontend from an S3 bucket.

Skills

- Programming Languages: JavaScript, TypeScript, C#
- Version Control: Git
- Framework: Angular, Express
- Runtime Environment: Node.js
- Web development: HTML, CSS, Bootstrap
- Testing Framework: Karma, Jasmine
- Tool: Visual Studio Code
- Cloud Platform: AWS (Elastic BeanStalk, S3), Azure
- Database: MongoDB

Education

B.Tech. in Industrial & Production Engineering

2017- 2021| CGPA: 7.48

Jabalpur Engineering College, MP, India

Higher Secondary Certificate (HSC)

June 2017| 87.6%

MP Board of Secondary Education

Certifications

Angular & NodeJS [Mean stack guide]

Feb 2025

Udemy

Infosys Certified Applied Generative AI Professional
